MISSION & VISION

To assist and encourage students to maximize their innate abilities and potential. We encourage students to plan their futures using their imagination, wisdom and creativity. We want students to understand that in order to reach a goal or a dream, they must envision it before they can physically achieve the goal.

Ayudar y animar a los estudiantes a maximizar sus habilidades y potencialidades innatas. Alentamos a los estudiantes a planificar su futuro usando su imaginación, sabiduría y creatividad. Queremos que los estudiantes comprendan que para alcanzar una meta o un sueño, deben visualizarlo antes de poder alcanzar físicamente la meta.

As a school community we understand that this is a difficult time for all of humanity. We encourage students and families to focus on the positive as being solutions-driven. We know that students will face various forms of adversity especially during this trying time, let's not focus on the negative and figure out solutions to our collective issues.

Como comunidad escolar, entendemos que este es un momento difícil para toda la humanidad. Alentamos a los estudiantes y familias a enfocarse en lo positivo como impulsado por soluciones. Sabemos que los estudiantes se enfrentarán a diversas formas de adversidad, especialmente durante este momento difícil, no nos enfoquemos en lo negativo y busquemos soluciones a nuestros problemas colectivos.
